B. Rule & Regulations

B1. Licensing and allocation of exhibition space

General

- During the exhibition period, Exhibition space is licensed to the Exhibitor only. The Exhibitor is not allowed to sub-license the exhibition space to the other, either wholly or in part.
- Co-exhibitors or sub-contracted exhibitors are not permitted.
- The Fair Organizer reserves the right to allocate the exhibition space booth design, experience in activities with DITP, or in any manner as they deem fit. The Fair Organizer reserves the right to change the venue for the Exhibition, to change the exhibition space allocated to the Exhibitor, to alter the size and dimensions of the exhibition space or to undertake other structural alterations as they deem fit. Such changes shall be at the discretion of the Fair Organizer and the Exhibitor shall have no claim for compensation as a result of any changes.
- If any Exhibitor who was approved by the Fair Organizer wishes to cancel the exhibition space, no Refunds will be issued in any event. The Fair Organizer has the right to reject the Exhibitor's application for any future event.

Exhibitor sales regulations

- All sales activities must be done inside the Exhibitor's allocated space.
- Products or services which are not included in the presented document cannot be exhibited. The Fair Organizer has the right to remove non-approved exhibits from the exhibition hall immediately. The operation and demonstration of exhibits must only be carried out within the framework of acceptable standards.
- It is not allowed to sell products other than the product category specified in the application during the public days.
- The exhibitors are not allowed to sell products during the trade days.

Conducts for exhibition participation

- During the exhibition period, the Exhibitor shall be responsible for the conducts of his employees or agents, and must comply with the Terms and Conditions in all respects. The Exhibitor must not take any action that causes a nuisance that the Fair Organizer deems inappropriate in accordance with the general standards of the fair.
- The Exhibitor must be able to operate its stand during the whole period of the fair.
- The Exhibitor should pay attention and follow the regulations specified in the Exhibitor's Manual, or acknowledged in any other way.
- It is not permissible for the Exhibitor to distribute promotional materials outside its own stand.
- Personnel attending the booth must be able to communicate with foreign buyers for negotiation purposes. (Please provide at least one English speaking staff to standby at the booth)

Construction and decoration

- The Exhibitor has option to either use a standard booth provided by the Fair’s official contractors or to design and construct its own stand. The Exhibitor must cover the floor and walls of the stand with appropriate materials. (For more information, please see C1. Standard Booth C2. Special Stand Construction)
- The Fair Organizer does not permit the Exhibitor to build its own stand using the Fair standard booth design at all.
- It is not permissible for the Exhibitor to decorate above the height of the booth as mentioned in the Exhibitor’s Manual, without prior approval from the Fair Organizer.
- It is not permissible for the Exhibitor to damage partitions, floor, or any other goods supplied by the official contractor.
- It is not permissible for Exhibitors to place objects outside the stand area or to obstruct fire safety devices, emergency exits, and electrical control cabinets.
- Use of the hall ceiling is not allowed for the exhibition.
- Exhibited products may not be removed during the period of the Exhibition without special authorization from the Fair Organizer.
- An Exhibitor who has bulky exhibits that cannot be transported freely along the aisles of the Exhibition should contact the Fair Organizer in advance, in order to prepare for the relocation.
- It is not permissible for the Exhibitor to use a naked flame and to store gasses and inflammable liquids within the exhibition area without the authorization of the premise officer and the Fair Organizer.
- The Fair Organizer may make arrangements for any objects left on the stand after the final clearance date to be removed at the risk and expense of the Exhibitor. The Fair Organizer shall be entitled to retain the Exhibitor’s property until such time as payment in full has been effected.
- The Fair Organizer will co-ordinate with the official contractors in the event that the Exhibitor would prefer to decorate the booth with standard decoration and equipment at the Exhibitor’s expense.
- The Exhibitor’s own stand construction decoration designs must be submitted to the Fair Organizer for approval before construction and installation.

B2. Electrical Supplies and Lighting

1. The organizer will provide general lighting in the exhibition hall during show time only.
2. The electrical power in the hall required 220 volts.
3. All electrical systems in the fair booth must be installed by an Official Electrical Contractor.
4. Electrical supply will be available 30 minutes before and after the show time. If exhibitors require 24 hours electrical supply or additional electrical equipment, **Form 9.1 – 9.5** must be filled out and sent directly to an Official Electrical Contractor **by 1 March 2024**.
5. Exhibitors are not permitted to perform any electrical connection to the main power supply of the exhibition hall without consulting the official electrical contractor.

6. If there are any electrical connection/modification or using multiple sockets without permission, the electrical supply will be cut without any warning.

7. The organizer reserves the right to cut the power supply to any booth in case of improper usage of electrical equipment or other dangerous conduct.

B3. Security Service

The regulations and principles for using electricity services.

The organizer has given official assignments to the Management exhibition and electric Co., Ltd. to be the head of responsible for all electricity services as following:

1. The general electricity services

1.1 It contains 2 main electric circuits, the electric circuit for lighting branch circuit and the individual branch circuit for showing products.

1.2 The standard electricity which had been provided are alternating current 220-volts 50 Hz one phase and 380-volts 50 Hz three phase with an error rate $\pm 10\%$. If the equipment that you brought is at risk to the fluctuation of voltage, you should use voltage stabilization device for protection and safety.

1.3 If you want to use others electric circuits such as single phase alternating current 110-volt 50 Hz or three phase alternating current 220-volts 50 Hz. You can request for special services by contacting directly to staffs of Management exhibition and electric Co., Ltd.

1.4 All of electric motors need to have automatic protection system for preventing overcurrent so you should have the starting system as following:

1.4.1 The direct starting system: the motor size less than 5 (hp)

1.4.2 The STAR-DELTA starting system: the motor size 5 to 25 (hp)

1.4.3 The AUTO TRANSFORMER starting system: the motor size more than 25 (hp)

Exhibitors and contractors who want to use electric current, please do not forget to reserve the breaker electric size which suitable for using in your process and provided for Safety factor at least 20%. In keeping with safety standard and prevent accidents that might occur from using overload electric current.

You must use suitable electric cable size for wiring electric interior and you have to manage about grounding system in every area. Lastly you have to use insulated wires for wiring electric under raised floor.

2. The electricity services in standard arched space.

2.1 The electricity system in standard arched space size 3.00*3.00 meters consists of lighting equipment and a plug outlet size 5 amps (Do not combine them with lights) 2 of these included in the electric current expenses already.

2.2 Exhibitors can request for using services by inform through pre-emption electric certificate which are divided in 4 sections.

Section 1: For exhibitors who want to use electricity for construction and demolition.

Section 2: For exhibitors who want the circuit breaker for display their products. (Do not use it with lightning)

Section 3: For exhibitors who want the equipment and breaker for cutting lightning circuit.

Section 4: For exhibitors who bring their own lightning equipment for using, in the even that they want to install by themselves and connected the wires by Management exhibition and electric Co., Ltd.

2.3 If you want to request for additional electricity services. Please read rules and conditions which specified in the form.

2.4 Exhibitors who were allowed to use their own lighting equipment. You have to order for using electricity from the power supply according to the services order form Section 3 or 4.

2.5 The organizer reserves the right to cut off electricity which Management Exhibition and Electric Co., Ltd. deems to be dangerous or cause annoyance to the audiences or other exhibitors.

2.6 Every day after 30 minutes of closing, the power supply for the exhibition will be cut off and on the last day of the exhibition, the electricity will be cut off after 60 minutes of closing but the electricity still working only in the 24 hours service points.

2.7 Any electrical connections, modifications, using of multiple outlets, or any unauthorized electrical connections. It caused the electricity is cut off without prior notice.

3. The electricity services in specific arched space.

3.1 Exhibitors who reserve only "space" to decorate a specially designed booth. You have to submit a request form for electrical service for the specially designed exhibition booth.

3.2 The organizer has provided general lighting in the exhibition building but for the electrical installation inside your booth and for demonstration purposes can be done by your electrical contractor who has been only approved from the organizer.

Exhibitors just submit the order form for electrical services according to your needs to Management Exhibition and Electric Co., Ltd. with payment within the specified period and for safety we do not allow to connect the power supply for exhibited products or lighting equipment to the main power supply system of the building is strictly prohibited. The organizer has the right authority to suspend the power supply in case of improper electrical connection.

3.3 The equipment and cables must have a TISI standard and suitable size for the standard electricity used.

3.4 Ordering the 3-phase electric circuit breaker must be directly connected to 3-phase electrical equipment. If you want to use separate phase electricity, we request that it would be only installed through a 3-phase load center cabinet.

3.5 Electrical contractor who assigned from the exhibitor have to send the electrical connection details, electrical circuit drawings and other details must be submitted to the organizer before the deadline that was specified in the order form.

Please attached these details for consideration and approval as follows:

3.5.1 Name of contractor's company

3.5.2 Name and ID cards of staffs

3.5.3 Numbers of watts or power rating

3.5.4 The design of circuit connection or electrical equipment

3.5.5 The form of ordering electricity service

3.6 The electricians who were approved. You can exchange you ID card for the entry card from the exhibition management office of the organizer that exhibits the products in that area.

3.7 For the specific arched space and the empty space, exhibitors have to order 2 types of electricity.

1. Electricity for the display products.

2. Electricity for lighting

3.8 The electricity connection that was operated by your contractor who was assigned from the exhibitor must verify from the Management exhibition and electric Co., Ltd before connect it to the power supply.

3.9 Exhibitors who order electricity service with the Management exhibition and electric Co., Ltd. They will get services from the company first-come, first-served.

3.10 Any electrical connections, modifications, using of multiple outlets, or any unauthorized electrical connections. It caused the electricity is cut off without prior notice.

3.11 Do not allow to use flashing lights except they are parts of the integrated circuit.

3.12 The organizer reserves the right to cut off electricity which Management Exhibition and Electric Co., Ltd. deems to be dangerous or cause annoyance to the audiences or other exhibitors.

3.13 All of the electricity connection will be complied with the principles and safety standards without exception.

4. **Wiring within the system** must use the appropriate wire size according to the standard and wired up the ground system at every point. If you detect that the use of wires without standard or the installation that the company deems to be

unsafe according to the specified standards, The company reserves the right to temporarily suspend the electricity supply until it will be resolved the standardized.

Wire sizes that have been standardized according to the breaker.

Breaker size	Standard wire size
15 Amp/220V 1 phase 50Hz.	2 x 2.5 Sq.mm., 1.5 Sq.mm. /Ground
15 Amp/380V 3 phase 50Hz.	4 x 2.5 Sq.mm., 1.5 Sq.mm. /Ground
30 Amp/220V 1 phase 50Hz.	2 x 6 Sq.mm., 4 Sq.mm. /Ground
30 Amp/380V 3 phase 50Hz.	4 x 6 Sq.mm., 4 Sq.mm. /Ground
60 Amp/380V 3 phase 50Hz.	4 x 16 Sq.mm., 6 Sq.mm. /Ground
100 Amp/380V 3 phase 50Hz.	4 x 35 Sq.mm., 10 Sq.mm. /Ground
150 Amp/380V 3 phase 50Hz.	4 x 70 Sq.mm., 16 Sq.mm. /Ground

5. **Ordering the breaker 380V 3 phase 50Hz** is allowed for only 1 subcircuit. If exhibitors want to use more than one subcircuit, you have to install a load center cabinet for using with subcircuit, if verify that there is no Load Center the company reserves the right to cut off electricity until installed it already and the connection of electrical wires to the company's breakers must connect with a Ring Terminals only. Bare wires are not allowed to be connected directly to the breaker.

6. **Management Exhibition and Electric Co., Ltd.** disallow Wiring, water, wind across through the corridor for safety and in order not to obstruct the passage of the exhibitors, contractors and visitors.

If you break these rules. As a result, the authorized representative able to cut off the electricity supply immediately and Management Exhibition and Electric Co., Ltd. will be fined 20x of the amount of equipment according to the exhibitor's manual.
